

ROCK STAR BABY

COME È INIZIATO TUTTO

Tico Torres è stato con Bon Jovi dal principio. Egli è un artista rispettato non solo come musicista batterista, ma anche nel mondo dell'arte, della pittura e scultura.

La sua professione lo ha portato in tutto il mondo, frequentando numerosi eventi e sfilate di moda. - Nello shopping nel corso degli anni per gli amici, e più recentemente, per il proprio figlio, Tico sperava di trovare moda bambino, ma il mercato è stato sempre carente.

Non c'era molto da scegliere in colori pastello, grigi, neri e bianchi erano inesistenti.

Nasce così la collezione rockstarbaby.

Le due idee, rock'n'roll e tradizione, si incontrano per produrre questa combinazione con il desiderio di fare ciò che è giusto per il vostro bambino e continuando ad avere quel vantaggio, semplicemente il meglio dei due mondi in bianco e nero.

Il brand utilizza i veri colori del rock - bianco e nero, con sfumature di grigio. E' il disegno personale e la filosofia che Tico porta al marchio che lo rende completo. Semplicistico, è la pulizia delle linee che definiscono l'equilibrio.

Acquistate regali per la vostra "Stella" sempre ed ovunque. Come Tico dice:

„OGNI BAMBINO È CONSIDERATO UNA STELLA!"

HOW IT ALL STARTED

Tico Torres is one of the world's most successful drummers. He has been with Bon Jovi from the beginning. Tico is also a respected artist, painter and sculptor.

His career has taken him all over the world to innumerable events and shows. He noticed all the hip parents – but the kids always looked the same. He felt that something was missing here – something special.

It was then it occurred to him to guide and direct the creation of a lifestyle brand. A collection combining high quality fabrics and timeless design was created. Besides the traditional colours of Rock – black and white – the collection presents itself in shades ranging from grey and anthrazite to silver. Rock Star Baby develops into a lifestyle brand, representing a completely new attitude to life.

Some years ago Bon Jovi celebrated the event of having sold over one hundred million albums. The album released on the occasion was named „100.000.000 fans can't be wrong".

Just as Bon Jovi has written musical history, Rock Star Baby and its cool fashion trends will survive the times.

The brand reflects Tico's own creativity. His novel interpretation of classical values and Rock combined with a spark of humour influenced his designs. With Rock Star Baby Products, every one can feel like a true rock star. As Tico says:

„EVERY BABY IS A STAR!"
